Farmers have climate solutions.

We should support them!

Sustainable Farms and Fields Bill (SB 5947)

This bill establishes a voluntary grant program to support farmers who adopt practices that improve

- Soil health by increasing organic matter
- Efficiency by decreasing emissions
- Trees on farms to sequester carbon and create healthy ecosystems

How can I help?

- If you are a farmer or rancher, email noa@carbonwa.org to share your input
- If you are a farmer, business, or organization, email noa@carbonwa.org to sign onto a letter of support
- Everyone can call their state legislators and tell them to pass SB 5947 in 2020

What's next?
The sustainable farms and fields bill passed the Senate in 2019.

It will automatically be reintroduced in the 2020 legislative session.

SB 5947, already has bipartisan support. We need your input to make this program effective and fair. We need your support to ensure that it passes in 2020.
